The Woodland Light

This beautiful new collection of ten wise and charming bedtime stories from the forest follows the success of *The Woodland Night* with Dutch, German Italian, Hungarian, Estonian, and Polish rights already sold!

Each story in this new collection explores the theme of light in a playful and unique way, while offering wisdom to see what truly matters. On surface, the stories merely guide readers on a n eventful journey through the forest alongside a bear cub, a moose, and other familiar woodland creatures. Yet, the effect on the reader and listener is profound.

'The Woodland Night is able to tell how to gently guide your soul in difficult situations. Each story is cathartic.'

– Ildikó Boldizsár, *fairytale therapist, Hungary*

'There are picture books ,and there are PICTURE BOOKS. There is no doubt that Happonen and Vasko's books belong to the latter.'

– *Lastenkirjähylly Children's Literature Review, Finland*

Lotta Montén & Aiju Salminen

OOPS and BRRR

A relatable and fun picture book story where the day's misunderstandings between little Oops and his parents lead to an eventful night-time for all. The story cleverly captures the sensory-rich way a young child perceives the world.

After a day when little Oops hasn't eaten that well, he awakes in the middle of the night feeling hungry. BRRR, the fridge, lures Oops to explore its shelves for a midnight feast, yet all does not go as planned. Eventually Oops' midnight feast still turns out a success as all the day's misunderstandings are finally cleared.

The story makes clever use of onomatopoeia, the phonetic sound words that objects and people make, to bring hilarity and instant relatability to the events and people. The vibrant illustrations by Aiju Salminen enhance the experience.

Kati Närhi

The Stranger

A heart-warming picture book that celebrates diversity and the joy found in discovering common ground with others.

A little mouse, who cherishes solitude and prefers the small and quiet things in life, finds his usual peace abruptly disrupted by someone he doesn't know; a stranger. When flower and cake deliveries arrive at mouse's house, they seem too big, too smelly, altogether too strange to him. Once the mouse eventually awakes to his own strange behaviour, it opens his eyes to see things differently.

Through an eventful journey of discovery, Kati Närhi challenges our preconceptions about others, and reminds us that every cherished friend was once a stranger.

Sanna Sofia Vuori & Nadja Sarell

- ① Mai's Horribly Terrible Day
- ② Mai's Horribly Achy Arm

The inventive and warm-hearted Mai books tell about a kindergartner's small worries and daily struggles that can sometimes grow into tigers, and even unicorns.

In the first Mai book, little Mai's day begins and continues with disappointments that she bottles up. The tigers in the story growl and multiply in synch with her upsets. However, a nice surprise eventually turns Mai's day around – and remarkably, Mai's tigers also begin to resemble ordinary cats — signalling the shift in her emotions. In the second book, it's time for the unicorns to gallop about when Mai feels overwhelmed!

In the second book, Mai falls over and hurts her arm badly, she is taken to hospital. As the grown-ups around her prod her achy arm and talk about it, the unicorns begin to appear! They multiply in synch of Mai feeling overwhelmed. With the help of a kind nurse, Mai eventually regains the feeling of being seen and heard again, and as if by magic, the unicorns disappear— as does the ache in her arm.

“Skillfully captures a child's perspective and brings out the small worries and daily struggles with authenticity and warmth... Nadja Sarell's colorful and diverse illustrations harmoniously combine imaginative emotional depictions with gentle everyday life.”

FOUR SEASONS WITH ANTSY

A sense of trust and security lies at the heart of this series. These books are of help to children as they learn to navigate their own emotions and begin to develop the skills they need to get along with others. The exciting and warm-hearted adventures are set in four seasons:

- ① Antsy. Dark and Stormy Night — Fear and anxiety
- ② Antsy. Message in a Bottle — Safety and trust
- ③ Antsy. Snowball Fight — Anger and rage
- ④ Antsy. Party of the Year — Love and individuality

The four books follow Antsy and his friends through the four seasons, and show how they react, with their different temperaments, in different situations. The autumn story deals with fear and overcoming it, the wintry tale with anger and rage, the summertime adventure by the seaside focuses on security and trust, and the spring is filled with love and individuality.

Maaret Kallio and Susanna Ruuhilahti have lent their expertise in emotional development into the creation of these fun yet effective stories that provide children with very useful tools as they encounter a spectrum of emotions and uncover the power of friendship. Julia Savtchenko's rich, full-colour illustrations exude warmth and the joy of childhood.

'Emotional skills cannot be simply acquired through performance; instead, they are continually learned in everyday life. Stories can serve as powerful tools in this regard. With Antsy books, we don't set out to teach about feelings, but rather, we rely on the power of storytelling. Stories can have a profound impact on individuals of all ages, as they connect with our inner selves in a way that mere knowledge or intellectual approaches cannot.'

Winter Came That Night

The award-winning, *sensitive and graceful picture book about the loss of a baby, told through the eyes of a big brother.*

“An extremely important children’s book about a difficult subject: the death of a child. The book delicately portrays the emptiness that forms after such an enormous loss. The way Isoaro approaches the subject is heartfelt and credible. In Mallius’ illustrations even sorrow has shades of solace, as it guides the reader through the family’s day-to-day. The story itself is told through the eyes of a big brother, but from the viewpoint of him watching and experiencing the grief of the grown-ups. Isoaro and Mallius do not underestimate the child – not the one experiencing the story, nor the one reading it. The work is of the highest quality children’s literature, also affecting the adult reader in a most poignant way. The book’s message is universal.” — Bothnia Prize Jury

Both the author and the illustrator have personally experienced the loss of a baby. They felt compelled to make a picture book on the topic, to bring some comfort to families who must find their way in the same situation. Their choice was a picture book that could prove valuable when discussing the difficult topic with the baby’s siblings who, along with their parents, experience the loss.
